

# THE SAN FRANCISCO FOUNDATION

*The Community Foundation of the Bay Area*

## **Oral Health Initiative Advisory Committee**

### **Purpose**

The Oral Health Initiative Advisory Committee shall provide advisory review on matters related planning and project implementation. It will provide strategic guidance on the Initiative's priority areas of health education and promotion, access to care, delivery system, provider training, and policy and advocacy. In addition, the Committee will provide advice on the Initiative's evaluation, and public education and strategic communications. The Committee will enhance the Foundation's ability to communicate with and better serve the community.

### **Appointment**

Appointments are made by The San Francisco Foundation with input from the Committee.

### **Term**

Members shall serve during the three-year duration of the Initiative. The Committee will meet twice a year.

### **Composition**

Membership shall consist of no fewer than 10 members. It shall consist of individuals in the oral health and health fields who are sensitive to the needs of the low-income persons with limited access to oral health services. There will be a representative from each county in the Foundation's five-county service area. The other Committee members shall have special expertise that will benefit the overall operation of the Initiative and the Committee. The Foundation's Community Health Program Officer will be member of the Committee. No Committee member shall be an active participant in a funded Initiative project.
